Education

Doctor of Philosophy in Statistics

MONASH UNIVERSITY

- Supervisors: Professor Rob J Hyndman, Professor George Athanasopoulos, Associate Professor Anastasios Panagiotelis
- Thesis: Component-Based Methods in Multivariate and Hierarchical Time Series Forecasting
- Submitted July 2024 (Intermission from May 2021 to Feb 2022 due to COVID-19)

Clayton, Australia

Apr. 2020 - Present

Bachelor of Commerce (Hons) in Econometrics

MONASH UNIVERSITY

- Thesis: Optimal Portfolio Selection via Dimensional Reduction in a Stochastic Optimal Control Setting
- GPA: 3.875; GRADE H1

Clayton, Australia

Mar. 2019 - Dec. 2019

Bachelor of Actuarial Science

MONASH UNIVERSITY

- GPA: 4; WAM: 90.323

Clayton, Australia

Jul. 2016 - Oct. 2018

Experience

Teaching Associate

MONASH UNIVERSITY

- Econometrics and Business Analytics

Clayton, Australia

2017, 2019 - 2020, 2022 - Present

Research Assistant

MONASH UNIVERSITY

- Developments of R packages and data wrangling

Clayton, Australia

2017 - 2020, 2022 - Present

Data Mining Engineer (Applied Economist)

HUOHUA SIWEI (ONLINE EDUCATION)

- Experimental design and evaluation, data mining and R web app development

Beijing, China

Apr. 2021 - Jan. 2022

Adjunct Lecturer

MONASH UNIVERSITY

- Suzhou Industrial Park Monash Research Institute of Science and Technology

Suzhou, China

Oct. 2020 - Jun. 2021

Visiting Student

SHANGHAI TECH UNIVERSITY SIST

- Supervisor: Assistant Professor Ziping Zhao

Shanghai, China

Dec. 2019 - Aug. 2020

Teaching

Applied Forecasting

HIGHEST STUDENT SATISFACTION BAND; ONE OF THE TOP PERFORMING UNITS IN THE STUDENT EVALUATION

Undergraduate and postgraduate

Sem 1 2022, Sem 1 2023

Advanced Statistical Modelling

HIGHEST STUDENT SATISFACTION BAND

Undergraduate and postgraduate

Sem 2 2022, Sem 1 2023

Principles of Econometrics

HIGHEST STUDENT SATISFACTION BAND

Undergraduate and postgraduate

Sem 2 2023, Sem 2 2024

Business and Economic Statistics

HIGHEST STUDENT SATISFACTION BAND; ONE OF THE TOP PERFORMING UNITS IN THE STUDENT EVALUATION

Undergraduate and postgraduate

2019, NOV12 2020, Sem 1 2021, 2024

Introductory Econometrics

Undergraduate and postgraduate

Sem 2 2024

Job Market Paper

“Forecast Linear Augmented Projection (FLAP): A free lunch to reduce forecast error variance” by Yangzhuoran Fin Yang, George Athanasopoulos, Rob J. Hyndman and Anastasios Panagiotelis

Abstract: We propose a novel forecast linear augmented projection (FLAP) method that can reduce the forecast error variance of any multivariate forecast. The method first constructs new component series which are linear combinations of the original series. Forecasts are then generated for both the original and component series. Finally, the full vector of forecasts is projected onto a linear subspace where the constraints implied by the combination weights hold. We show that the projection using the original forecast error covariance matrix will result in improved forecasts. Notably, the new forecast error variance of each series is non-increasing with the number of components, and mild conditions are established for which it is strictly decreasing. It is also shown that the proposed method achieves maximum forecast error variance reduction among linear projection methods. We demonstrate our proposed method with an estimated covariance matrix using simulations and two empirical applications based on Australian tourism and FRED-MD data. In all cases, forecasts are improved. Notably, using FLAP with Principal Component Analysis (PCA) to construct the new series leads to substantial forecast error variance reduction.

Conferences and Talks

Jul. 2024	Annual useR! conference	Salzburg, Austria
Jul. 2024	44th International Symposium on Forecasting	Dijon, France
Jun. 2024	Annual Conference of the International Association for Applied Econometrics	Thessaloniki, Greece & Xiamen, China
Apr. 2024	Monash NUMBATs Seminar	Melbourne, Australia
Jun. 2023	43rd International Symposium on Forecasting	Charlottesville, USA
Jun. 2020	11th IEEE Sensor Array and Multichannel Signal Processing Workshop	Virtual

Awards, Grants and Scholarships

- 2024 Monash Business School Prestigious International Conference Award
- 2023 International Symposium on Forecasting Travel Grant
- 2023 Monash Graduate Research Travel Grant
- 2020 - 2024 Monash Business School Co-funded Graduate Research Scholarship
- 2020 - 2024 Monash Graduate Scholarship
- 2020 IEEE Sensor Array and Multichannel Signal Processing Workshop Best Student Paper Award Finalist
- 2019 Monash Business School Dean's Honour
- 2019 Monash University Econometrics Honours Memorial Scholarship
- 2018 Monash Business School Prize for the Top Achieving Student in Actuarial Science (Undergraduate)
- 2018 Monash University Medal for Undergraduate Academic Excellence
- 2018 Monash Business School Dean's Honour
- 2018 Monash Business School Student Excellence Award in recognition of exceptional academic excellence (Business analytics, Modelling in finance and insurance, Applied forecasting for business and economics)
- 2018 The International Institute of Forecasters Student Forecasting Award offered by Monash University Applied Forecasting for Business and Economics
- 2017 Monash Business School Student Excellence Award in recognition of exceptional academic excellence (Statistical Thinking, Principles of Econometrics, Contingencies in insurance and pensions)
