## **Education**

#### **Doctor of Philosophy in Statistics**

Clayton, Australia

Monash University

Apr. 2020 - Present

- Supervisors: Professor Rob J Hyndman, Professor George Athanasopoulos, Associate Professor Anastasios Panagiotelis
- Thesis: Component-based Approaches in Multivariate and Hierarchical Forecasting
- Expected July 2024 (Intermission from May 2021 to Feb 2022 due to COVID-19)

#### **Bachelor of Commerce (Hons) in Econometrics**

Clayton, Australia

MONASH UNIVERSITY

Mar. 2019 - Dec. 2019

- · Thesis: Optimal Portfolio Selection via Dimensional Reduction in a Stochastic Optimal Control Setting
- GPA: 3.875; GRADE H1

#### **Bachelor of Actuarial Science**

Clayton, Australia Jul. 2016 - Oct. 2018

Monash University

• GPA: 4; WAM: 90.323

# **Experience**

Teaching Associate

Clayton, Australia

Monash University 2017, 2019 - 2020, 2022 - Present

• Econometrics and Business Analytics

Research Assistant Clayton, Australia

MONASH UNIVERSITY

2017 - 2020, 2022 - Present

• Developments of R packages and data wrangling

**Data Mining Engineer (Applied Economist)** 

Beijing, China

Huohua Siwei (Online Education)

Apr. 2021 - Jan. 2022

• Experimental design and evaluation, data mining and R web app development

**Adjunct Lecturer** Suzhou, China

Monash University

Oct. 2020 - Jun. 2021

Suzhou Industrial Park Monash Research Institute of Science and Techology

Visiting Student Shanghai, China

SHANGHAITECH UNIVERSITY SIST

Dec. 2019 - Aug. 2020

• Supervisor: Assistant Professor Ziping Zhao

## Job Market Paper

"Forecast Linear Augmented Projection (FLAP): A free lunch to reduce forecast error variance" by Yangzhuoran Fin Yang, George Athanasopoulos, Rob J. Hyndman and Anastasios Panagiotelis

Abstract: A novel forecast linear augmented projection (FLAP) method is introduced. FLAP provably reduces the forecast error variance of any unbiased multivariate forecast without introducing bias. The method first constructs new series as linear combinations of the original series. Forecasts are then generated for both the original and new series. Finally, the full vector of forecasts is projected onto a linear subspace where the constraints implied by the combination weights hold. These new series are called components. It is proven that the trace of the forecast error variance is non-increasing with the number of components, and mild conditions are established for which it is strictly decreasing. It is also shown that the proposed method achieves maximum forecast error variance reduction among linear projections. The theoretical results are validated through simulations and two empirical applications based on Australian tourism and FRED-MD data. Notably, using FLAP with Principal Component Analysis (PCA) to construct the new series leads to substantial forecast error variance reduction.

- 4. "Forecasting Multiple Time Series with One-Sided Dynamic Autoregressive Principal Components"

## Conferences and Talks

Jul. 2024 Annual useR! conference

Jul. 2024 44th International Symposium on Forecasting

Jun. 2024 Annual Conference of the International Association for Applied Econometrics

Apr. 2024 Monash NUMBATs Seminar

Jun. 2023 43rd International Symposium on Forecasting

Jun. 2020 11th IEEE Sensor Array and Multichannel Signal Processing Workshop

Salzburg, Austria

Dijon, France

Thessaloniki, Greece & Xiamen, China

Melbourne, Australia

Charlottesville, USA

Virtual

# **Awards, Grants and Scholarships**

- 2024 Monash Business School Prestigious International Conference Award
- 2023 International Symposium on Forecasting Travel Grant
- 2023 Monash Graduate Research Travel Grant
- 2020 2024 Monash Business School Co-funded Graduate Research Scholarship
- 2020 2024 Monash Graduate Scholarship
- 2020 IEEE Sensor Array and Multichannel Signal Processing Workshop Best Student Paper Award Finalist
- 2019 Monash Business School Dean's Honour
- 2019 Monash University Econometrics Honours Memorial Scholarship
- 2018 Monash Business School Prize for the Top Achieving Student in Actuarial Science (Undergraduate)
- 2018 Monash University Medal for Undergraduate Academic Excellence
- 2018 Monash Business School Dean's Honour
- 2018 Monash Business School Student Excellence Award in recognition of exceptional academic excellence (Business analytics, Modelling in finance and insurance, Applied forecasting for business and economics)
- 2018 The International Institute of Forecasters Student Forecasting Award offered by Monash University Applied Forecasting for Business and Economics
- 2017 Monash Business School Student Excellence Award in recognition of exceptional academic excellence (Statistical Thinking, Principles of Econometrics, Contingencies in insurance and pensions)
